

HANDOUT

From: [Julie Busc](#)
To: [MSB Planning Commission](#)
Subject: Facility in down town Big Lake next to Library and park that is requesting permission to make marijuana growing manufacturing
Date: Friday, May 24, 2024 8:42:44 PM

[EXTERNAL EMAIL - CAUTION: Do not open unexpected attachments or links.]

To whom it may concern:

I am a very concerned citizen of Big Lake. We have several folks who want to turn a vacant business into a growing business in down town Big Lake. It is next door to our library and Jordan park. It has a public bike trail running in front of building. Please this makes no sense for our community. Houston welcomes their type of business we do not, and especially not next door to the library. We don't want the crime that comes with this type of business or the traffic, the potentially stoned patrons or growers when the library has so many children it serves and are subject to the fumes, the criminal activities, and the clientele it serves. If the want to do this out of downtown then they should look not next door to a school or next door to Library or across from the Fire Department. Please consider the kids and say no to Next Level Labs license number 38382 and no 38379 Say no to Alaska Vibes, LLC. No to Lakeside Relief, No to Greg Miller, No to Kerby Coman, No to Casey Wilkins and all involved. It's just a bad idea.

Will invite crime in our area, unwanted traffic, won't be safe for kids at library or kids using bike path or kids being around the fumes. We are trying to make the world a better place for our kids and our grandkids and build our downtown. This type of business has no business in our town planning.

Thank you,
Julie Busch
